Dear Stan:

Thank you for your kindness in reporting so well on CJ's DX test way back in March of 1963.

Somehow, in answering the mail, your letter and tape reel became seperated from the rest and I only came across them today.

Have sent along a confirming cardfor your report, which we greatly appreciated. After dubbing off your tape, will send it back to you so that you can delight some other station with a taped report!

Please accept my apologies for the long delay in replying!

With best wishes,

Bob Morrison
